

Curriculum Development Roles

Master of Curriculum (MC)

This person is in charge of the overall direction of the course. They will have been a long time contributor to the repository. They must also ensure that they have enough spare time to devote to the ongoing development of the material. They will be involved in every commit to the stable repository, and mediate any discussion between other parties.

Subject Matter Expert (SME)

The SME is a member of the development team who is familiar and has experience in the subject matter of the course. They will probably be a long time contributor.

External Assessor (EA)

The EA is preferably someone with little to no history developing material for a particular course. They are by no means unskilled, but this role relies on the fact that they do not make cognitive leaps while assessing material. To this end it helps to have the EA as removed from the creation of material as possible.

Here is a list of people fulfilling these roles within the current repos.

Repo name	Current state.	Master of Curriculum	Subject Matter Expert	External Assessor
cheat-sheets.git	Not yet Stable			
cloud-virt.git	Not yet Stable			
dns-dnssec.git	Not yet Stable	Phil		Mike
doc-templates.git	Not yet Stable			
net-design.git	Not yet Stable			
netmgmt.git	Not yet Stable	Phil	Chris	Dean, Mike
nsrddb.git	Not yet Stable			
openflow-sdn.git	Not yet stable	Dean		
outlines.git	Not yet Stable			
security.git	Not yet Stable	Phil		Dean
sysadm-services.git	Not yet Stable			Dean
training.git	Not yet Stable			
wireless.git	Not yet Stable	Jon	Chris	
workshop-kit.git	Not yet Stable			Dean
wsn.git	Not yet Stable	Jon
